

Report Date: 26 Jun 2014

Summary Report for Individual Task
551-88K-2720
Operate High Frequency Radio
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD5 - This product/publication has been reviewed by the product developers in coordination with the Fort Lee, VA foreign disclosure authority. This product is releasable to students from all requesting foreign countries without restrictions.

Condition: Assigned as a crewmember aboard Army watercraft, given an Operation Order/Operations Plan (OPORD/OPLAN), a complete risk assessment, Radio Operations Manual, ACP 125(D), TC 4-15.51, TM 55-5825-311-10-1, a high frequency (HF) radio, and receiving station, day or night, in all weather conditions, in an operational environment scenario. Some iterations of this task should be performed in MOPP 4.

Standard: Operate HF radio by successfully sending and receiving a message without injury to personnel or damage to equipment.

Special Condition: None

Safety Risk: Low

MOPP 4: Sometimes

Task Statements

Cue: Given an OPORD/OPLAN to operate a high frequency radio.

DANGER

Adhere to all Danger statements in the TM for this task.

WARNING

Adhere to all Warning statements in the TM for this task.

CAUTION

Adhere to all Caution statements in the TM for this task.

Remarks: Use any vessel equipped with an HF radio.

Notes: - The multifunctional keypad is used for alphanumeric entry or specific mode access.

- LCD displays having a circular arrow symbol indicate multiple screens that may be accessed by pressing the circular arrow key on the keypad.

- The CLR key may be used to back up one level if an error is made while programming the radio.

- The radio can be manually operated from a built-in system preset called MANUAL. This preset uses channel number 000. This is the only channel with a setting that can be changed from the channel screen without entering program mode.

Performance Steps

1. Power up HF radio following procedures outlined in manual for specific model HF radio.
2. Perform self-test on the HF radio.
3. Perform operating procedures to program HF radio to required communication frequency/channel.

Note:

4. Perform communication check with another station.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance steps are passed (P). Score the Soldier NO-GO if any performance step is failed (F). If the Soldier fails any step, show what was done wrong and how to do it correctly.

Evaluation Preparation: Ensure that all information, references and equipment required to perform the task are available. Use the TC and the Evaluation Guide to score the Soldier's performance. Brief the Soldier. Tell the Soldier what is required IAW the task condition and standard.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Powered up HF radio following procedures outlined in manual for specific model HF radio.			
2. Performed self-test on the HF radio.			
3. Performed operating procedures to program HF radio to required communication frequency/channel.			
4. Performed communication check with another station.			

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	57E43B10	Radio Operations	No	No
	ACP 125(D)	Radiotelephone Procedures	No	No
	TC 4-15.51	Marine Crewman's Handbook	No	Yes
	TM 55-5825-311-10-1	OPERATORS MANUAL FOR U.S. ARMY WATERCRAFT COMMAND, CONTROL,	Yes	Yes

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

AR 200-1 delineates TRADOC responsibilities to integrate environmental requirements across DOTMLPF and ensures all training procedures, training manuals, and training doctrine includes sound environmental practices and considerations. The Army's environmental vision is to be a national leader in environmental and natural resource stewardship for present and future generations as an integral part of all Army missions. Environmental protection is never completed. Continuously be alert to ways to protect our environment and reduce waste.

Leaders must ensure that their unit has an active and strong environmental program. They must understand the laws and know what actions to take. Leaders bring focus, direction, and commitment to environmental protection. Commanding officers should ensure the following environmental programs are in place and are being maintained:

- Hazardous materials program.
- Hazardous waste program.
- Hazardous communications program.
- Pollution prevention and hazardous waste minimization recycling program.
- Spill prevention and response plan program.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk

Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.

All operations will be performed to protect and preserve Army personnel and property against accidental loss. Procedures will provide for public safety incidental to Army operations and activities and safe and healthful workplaces, procedures, and equipment. Observe all safety and/or environment precautions regarding electricity, cable, and lines. Provide ventilation for exhaust fumes during equipment operation and use hearing protection when required IAW AR 385-10, the Clean Air Act (CAA) and the CAA amendments, and the OSHA Hazard Communication standard.

Accidents are an unacceptable impediment to Army missions, readiness, morale, and resources. Decision makers at every level will employ risk management approaches to effectively preclude unacceptable risk to the safety of personnel and property affiliated with this task.

- (a) Take personal responsibility.
- (b) Practice safe operations.
- (c) Recognize unsafe acts and conditions.
- (d) Take action to prevent accidents.
- (e) Report unsafe acts and conditions.
- (f) Work as a team.

Prerequisite Individual Tasks :

Task Number	Title	Proponent	Status
551-88K-1704	Operate Emergency Radios Onboard a Vessel	551 - Transportation (Individual)	Approved
551-88K-1702	Operate Tactical Radios Onboard a Vessel	551 - Transportation (Individual)	Approved
551-88K-2703	Conduct Tactical Operations Radios Onboard a Vessel	551 - Transportation (Individual)	Approved

Supporting Individual Tasks :

Task Number	Title	Proponent	Status
551-88K-1704	Operate Emergency Radios Onboard a Vessel	551 - Transportation (Individual)	Approved
551-88K-1702	Operate Tactical Radios Onboard a Vessel	551 - Transportation (Individual)	Approved
551-88K-1703	Operate a Bridge to Bridge (VHF) Radio Onboard a Vessel	551 - Transportation (Individual)	Approved

Supported Individual Tasks :

Task Number	Title	Proponent	Status
551-88K-3702	Operate Tactical Radio Onboard a Vessel	551 - Transportation (Individual)	Approved
551-88K-3713	Operate an Automated Network Control Device (ANCD)	551 - Transportation (Individual)	Approved
551-88K-3703	Monitor Bridge to Bridge (VHF) Radio Onboard a Vessel	551 - Transportation (Individual)	Approved

Supported Collective Tasks :

Task Number	Title	Proponent	Status
55-2-1508	Conduct Vessel Operations	55 - Transportation (Collective)	Approved

ICTL Data :

ICTL Title	Personnel Type	MOS Data
MOS 88K Watercraft Operator SL3	Enlisted	MOS: 88K, Skill Level: SL3, Duty Pos: TAV

MOS 88K Watercraft Operator-SL2	Enlisted	MOS: 88K, Skill Level: SL2, Duty Pos: TCF
MOS 88K Watercraft Operator SL 4	Enlisted	MOS: 88K, Skill Level: SL4, Duty Pos: TFJ
